## Technology, Equality and Equity for Global Vaccination Certificates and Passports

**24 February 8:00 - 10:00 UTC**

The goal of this webinar is to create a platform for dialogue and knowledge exchange. The focus is to develop a greater understanding of current digital technologies, data management systems, standards, regulations, guidelines and processes that operate around the world issuing, managing and distributing 'COVID-19 Vaccination Certificates and Passports'. The discussions will highlight the current cross border agreements, bilateral treaties and systems that provide the infrastructure for equitable, safe and secure exchange of vaccination status. The current inequities are having a significant impact on the mobility of people and goods) resulting in economic hardships around the world, particularly for marginalized communities.

The event will contain two panels followed by resulting dialogue:

- Country-level perspectives
- Regional development agencies perspectives
- Prioritization of critical challenges and opportunities for new standards, recommendations and way forward, and closing remarks

Please join us to share your perspectives.

## Agenda

1. Welcome & Introductory Remarks: Lloyd Green, IEEE SA and Maria Palombini, IEEE SA Healthcare and Life Sciences Practice Lead
2. Setting the Stage: Global Challenges, Inequities and Opportunities: Prof. Salma Abbasi, Vice Chair of IEEE Digital Resilience IC Activity, eWWG
3. Panel 1: Country level perspectives
  - Austria, Dr. Christian Baumann
  - Bangladesh, Mr. Kawsar Hossain Sojib
  - Malaysia, Dr. Suraya Sulaiman
  - Nigeria, H.E. Dr. Amina Abubakar
  - Rwanda, Dr. Albert Tuyishime
  - South Korea, Dr. Wang-jun Lee
4. Insights into standards, technology and processes for vaccination certificates or passports
  - Cross border arrangements
  - Key multi-sector stakeholders
  - Challenges and issues
  - Best practices and lessons learnt
  - Recommendations
5. Panel 2: Multi-stakeholder perspectives
  - Asian Development Bank, Rui Lui
  - UN-ECA, Ms. Mama Keita
  - UN-ESCAP, Dr. Aida Karazhanova
  - Infrablocks, Mr. Shubhomoy Ray
  - Nanorganic Precious Food, H.E. Chris Lu
  - University of Oxford, Prof. Teresa Lambe
6. Insights into standards, technology and processes for vaccination certificates or passports
  - Cross border arrangements for economic trade
  - Key multi-sector stakeholders
  - Challenges and issues
  - Best practices and lessons learnt
  - Recommendations
7. Prioritization of critical challenges and opportunities for new standards
8. Recommendations and way forward, Prof. Abbasi, eWorldwide Group
9. Closing remarks: H.E. Dr. Amina Abubakar, 1st Lady, Niger State, Nigeria
